

March 1990

## MATERIAL SAFETY DATA SHEETS (MSDS)

as required by OSHA Hazard Communication Standard (29 CFR 1910.1200)

In compliance with the States of Washington, Oregon, California and Utah Toxic Substance Law and OSHA's Hazard Communication Standard per 29CFR 1910.1200, British Steel Alloys Inc. in providing revised Material Safety Data Sheets (MSDS) for your use. These revisions are dated March 1990 and replace earlier sheets dated May 1986. A copy of these standards is also printed in a section of our Product and Quality Control Manual. In the event significant revisions become necessary in the future, revised MSDS will be issued.
